- Year of the Boar Zodiac 3-D Head
- Year of the Rat Zodiac 3-D Head

Wheatware.com™: saving forests and earth's valuable resources

Forest-derived products cause the destruction of over 40 million forest trees per year. With each virgin forest lost, Earth's capacity to create oxygen and cool itself becomes diminished.

Purchasing our crop-derived Wheatware™ products, instead of forest-derived wood or cardboard products, helps play a significant role in safeguarding millions of virgin forest trees, Earth's air conditioning system.

The Wheatware™ commitment is to help secure a sustainable future by offering an expanding number of products which replace virgin forest wood products. In addition we make plastic replacement products that reduce our dependency on oil. Wheatware™ and Cornware™ products open up a world of new earth-friendly eco-products for us, our children and generations to come.
